FUND SUMMARY

Investment Objective

The investment objective of the Monteagle Quality Growth Fund (the “Fund”) is long-term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses you may pay if you buy and hold shares of the Fund.

Maximum Sales Charge (Load) Imposed on Purchases	None
Maximum Deferred Sales Charge (Load)	None
Sales Charge (Load) Imposed on Reinvested Distributions	None
Redemption Fee	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	1.20%
Distribution and/or Service (12b-1) Fees	0.00%
Other Expenses	0.12%
Acquired Fund Fees and Expenses ¹	0.05%
Total Annual Fund Operating Expenses¹	1.37%

¹ Total Annual Fund Operating Expenses do not correlate to the ratio of expenses to average net assets provided in the Financial Highlights. The information in the Financial Highlights reflects the operating expenses of the Fund and does not include Acquired Fund Fees and Expenses. Acquired Fund Fees and Expenses are the fees and expenses incurred indirectly by the Fund as a result of its investments in investment companies and other pooled investment vehicles.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year, and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year	3 Years	5 Years	10 Years
\$139	\$434	\$750	\$1,646

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 42% of the average value of its portfolio.

Principal Investment Strategies

The Fund uses a “growth investing” style by investing, under normal circumstances, at least 80% of its assets in the common stock of domestic companies that its Sub-adviser believes have superior growth potential and fundamental characteristics that are significantly better than the market average and support internal earnings growth capability. The Fund invests in small and mid-capitalization companies that have a minimum market capitalization of \$250 million at the time of purchase. The Fund seeks to maintain a minimum average weighted market capitalization of at least \$5 billion.

Principal Investment Risks

An investment in the Fund is subject to investment risks, including the possible loss of some or all of the principal amount invested. There can be no assurance that the Fund will be successful in meeting its investment objective. Generally, the Fund will be subject to the following additional risks:

Investment Selection Risk. The Fund’s ability to achieve its investment objective is dependent on the Sub-adviser’s ability to identify profitable investment opportunities for the Fund.

Market Risk. The value of securities in the Fund’s portfolio may decline due to daily fluctuations in the securities markets, including fluctuation in interest rates, national and international economic conditions and general equity market conditions.

Small and Mid-Capitalization Risk. The Fund may invest in small and medium capitalization companies which involve greater risks than those associated with larger, more established companies. Smaller companies may be subject to more abrupt or erratic price movements.

An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund is not a complete investment program.

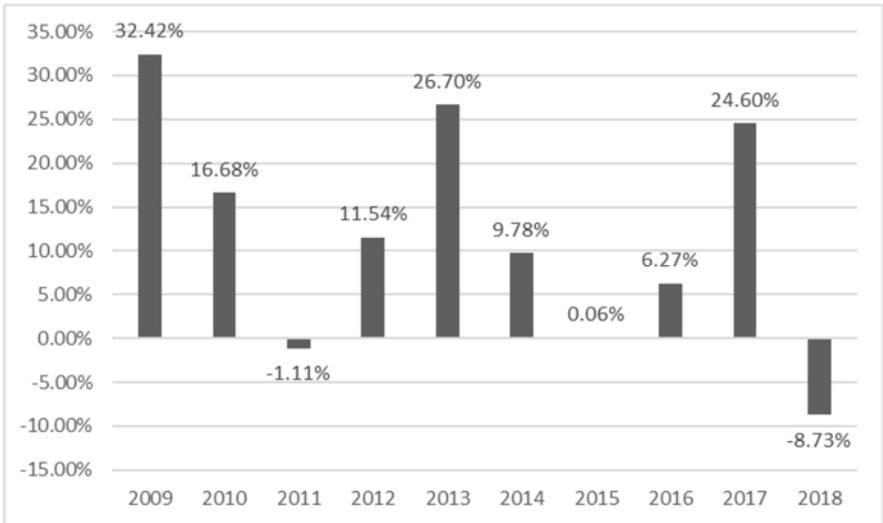

Performance

The bar chart and performance table that follow provide some indication of the risks and variability of investing in the Fund by showing changes in the Fund’s performance from year to year and by showing how the Fund’s average annual total returns compare with

those of a broad measure of market performance. The Fund’s past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future.

The following chart shows the total return of the Fund for the past ten full calendar years for periods subsequent to the effective date of the Fund’s registration statement.

Calendar Year Returns as of December 31

The Fund’s Institutional Class Shares year-to-date total return through September 30, 2019 was 12.28%.

During the period shown in the bar chart, the highest quarterly return was 14.43% (for the quarter ended March 31, 2012) and the lowest return was -23.95% (for the quarter ended December 31, 2008).

**Average Annual Total Returns
For the Period Ended December 31, 2018**

The table below shows how the Fund’s average annual total returns compared to those of the S&P 500 Index® and the Russell 1000 Growth Index®. The Russell 1000 Growth Index®, which measures the performance of the large-cap growth segment of the U.S. equity universe and includes those Russell 1000 companies with higher price-to-book ratios and higher forecasted growth values, is provided as a supplemental benchmark because it is reflective of the market for growth stocks in which the Fund invests. The table also presents the impact of taxes on the Fund’s returns. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state or local income taxes. Your actual after-tax returns depend on your tax situation and may differ from those shown. If you own the Fund in a tax-deferred account, such as an individual retirement account (“IRA”) or a 401(k) plan, after-tax returns are not relevant to your investment because such accounts are subject to taxes only upon distribution.

Financial Intermediary Compensation

Payments to Broker-Dealers and Other Financial Intermediaries. If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related

services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's Web site for more information.

A discussion regarding the basis for approval by the Board of Trustees of the Trust's Management Agreement with the Adviser is available in the Fund's semi-annual report for the period ended February 28, 2018.

YOUR ACCOUNT

Who May Want to Invest in the Fund

- You are willing to tolerate significant fluctuations in the value of your investment
- You are pursuing a long-term goal
- You are willing to accept higher short-term risk

The Fund may *not* be appropriate for you if:

General Information

You pay no sales charges to purchase or sell (redeem) shares of the Fund. You may purchase and sell shares at the net asset value (“NAV”) next calculated after receipt of your purchase order or redemption request by the Fund’s transfer agent in “good order.” If your purchase order is received in good order prior to 4:00 p.m. (Eastern time), your transaction will be priced at that day’s NAV. The Fund will not accept orders that request a particular day or price for the transaction or any other special conditions. The Fund will be deemed to have received a purchase order or redemption request when an authorized broker or, if applicable, a broker’s designee receives same in good order.

Good Order:

Purchase Order of Shares: When making a purchase request, make sure your request is in good order. “Good order” means your purchase request includes:

- the name of the Fund and share class, if applicable;
- the dollar amount of shares to be purchased;
- a completed purchase application or investment stub; and
- a check payable to the Fund.

Redemption Request of Shares: When making a redemption request, make sure your request is in good order. “Good Order” means your redemption request includes:

- the Fund name and your account number;
- the account name(s) and address;
- the dollar amount or number of shares you wish to redeem; and
- signatures by all registered share owner(s) in the exact name(s) and any special capacity in which they are registered.

The Fund does not issue share certificates.

You will receive quarterly statements and a confirmation of each transaction. You should verify the accuracy of all transactions in your account as soon as you receive your confirmation.

The Fund reserves the right to impose new minimum investment amounts. The right of redemption may not be suspended, except for any period during a period which: (1) the New York Stock Exchange, Inc. is closed (other than customary weekend and holiday

closings) or during which the SEC determines that trading thereon is restricted; (2) an emergency (as determined by the SEC) exists as a result of which disposal by a Fund of its securities is not reasonably practicable or as a result of which it is not reasonably practicable for a Fund fairly to determine the value of its net assets; or (3) the SEC may by order permit for the protection of the shareholders of a Fund.

When and How NAV is Determined. The Fund calculates its NAV as of the close of regular trading on the New York Stock Exchange (the “Exchange”) (generally 4:00 p.m., Eastern time) on each weekday except days when the Exchange is closed. The price at which a purchase or redemption is effected is based on the next calculation of NAV after the order is placed. The time at which the Fund’s NAV is calculated may change if the SEC has determined an emergency condition exists or if the Exchange closes early. The Fund’s NAV is determined by taking the market value of all securities owned by the Fund (plus all other assets such as cash), subtracting all liabilities and then dividing the result (net assets) by the number of shares outstanding. The Fund values securities for which market quotations are readily available at current market value. If market quotations are not readily available or are considered to be unreliable due to significant market or other events, the Fund values securities at fair value, as determined under procedures adopted by the Board of Trustees of the Trust (e.g., if the exchange on which a portfolio security is principally traded closes early or if trading in a particular portfolio security was halted during the day and did not resume prior to the Fund’s NAV calculation). The NAV may be different if fair value is utilized rather than using market quotations.

Systematic Investments. You may invest a specified amount of money in the Fund once or twice a month on specified dates. These payments are taken from your bank account by electronic transfer. Limitations on Purchases. The Fund reserves the right to refuse any purchase (including exchange) request, particularly requests that could adversely affect the Fund or its operations. This includes those from any individual or group who, in the Fund's view, is likely to engage in excessive trading.

Cancelled or Failed Payments. The Fund accepts checks and electronic bank transfers at full value subject to collection. If your payment for shares is not received or you pay with a check or electronic bank transfer that does not clear, your purchase will be cancelled. You will be responsible for any losses or expenses incurred by the Fund or the Transfer Agent, and the Fund may redeem shares you own in the account (or another identically registered account in any Fund) as reimbursement. The Fund and its agents have the right to reject or cancel any purchase, exchange or redemption due to nonpayment.

Customer Identification and Verification. To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person that opens a new account, and to determine whether such person's name appears on government lists of known or suspected terrorists and terrorist organizations. As a result, the Fund must obtain the following information for each person that opens a new account:

- Name;
- Date of birth (for individuals);
- Residential or business street address (although post office boxes are still permitted for mailing); and
- Social security number, taxpayer identification number, or other identifying number.

You may also be asked for a copy of your driver's license, passport, or other identifying document in order to verify your identity. In addition, it may be necessary to verify your identity by cross-referencing your identification information with a consumer report or other electronic database. Additional information may be required to open accounts for corporations and other entities. *Federal law prohibits the Fund and other financial*

institutions from opening a new account unless they receive the minimum identifying information listed above.

After an account is opened, the Fund may restrict your ability to purchase additional shares until your identity is verified. The Fund also may close your account or take other appropriate action if it is unable to verify your identity within a reasonable time. If your account is closed for this reason, your shares will be redeemed at the NAV next calculated after the account is closed. In each case, your redemption proceeds may be worth more or less than your original investment. The Fund will not be responsible for any loss incurred due to the Fund's inability to verify your identity.

Selling Shares

The Fund processes redemption orders promptly and you will receive redemption proceeds within a week. Delays may occur in cases of very large redemptions, excessive trading or during unusual market conditions. Under unusual circumstances as provided by the rules of the SEC, the Fund may delay payment of redemption proceeds for more than 7 days. The Fund will redeem your shares when the redemption request is received in proper form; however, if you recently purchased your shares by check and the Fund has not yet collected payment for those shares, your redemption proceeds will only be released when the Fund is reasonably satisfied that the check has cleared, which may take up to 15 calendar days.

Telephone Redemption Privileges. You may redeem your shares having a value of \$25,000 or less by telephone by calling the Transfer Agent at (888) 263-5593 unless you declined telephone redemption privileges on your account application. Telephone redemptions may be requested only if the proceeds are to be sent to the shareholder of record and mailed to the address on record with the Fund.

Upon request, redemption proceeds of \$100 or more may be sent to your bank by electronic transfer, and proceeds of \$5,000 or more may be transferred by wire, in either case to the account stated on the account application. Shareholders may be charged a fee of \$15 by the Fund’s custodian for outgoing wires.

Telephone redemption privileges and account designations may be changed by sending the Transfer Agent a written request with all signatures guaranteed as described above. The Transfer Agent requires personal identification before accepting any redemption request by telephone, and telephone redemption instructions may be recorded. If reasonable procedures are followed by the Transfer Agent, neither the Transfer Agent nor the Fund will be liable for losses due to unauthorized or fraudulent telephone instructions. In the event of drastic economic or market changes, a shareholder may experience difficulty in

redeeming shares by telephone. If such a case should occur, redemption by mail should be considered.

Wire Redemptions. You may have your redemption proceeds wired to you if you provided bank account information on your account application. The minimum amount you may redeem by wire is \$5,000. If you wish to make your wire request by telephone, you must also have telephone redemption privileges.

IRA Redemptions. If you are an IRA shareholder, you must indicate on your redemption request whether or not to withhold federal income tax. Requests that do not indicate a preference will be subject to withholding.

Systematic Withdrawal. If you own shares of the Fund with an aggregate value of at least \$10,000, you may request a specified amount of money from your account once a month or once a quarter on a specified date. These payments can be sent to your address of record by check or to a designated bank account by electronic transfer. Systematic requests must be for at least \$100.

Signature Guarantee Requirements. To protect you and the Fund against fraud, certain redemption options will require a signature guarantee. A signature guarantee verifies the authenticity of your signature. The Transfer Agent will accept signatures guaranteed by a domestic bank or trust company, broker, dealer, clearing agency, savings association or other financial institution which participates in the STAMP Medallion program sponsored by the Securities Transfer Association. Signature guarantees from financial institutions which do not participate in the STAMP Medallion program will not be accepted. A notary public cannot provide a signature guarantee. Written instructions signed by all registered owners, with a signature guarantee for each owner, are required for any of the following:

- Request to redeem \$100,000 or more;
- Redemption from an account for which the address or account registration has changed within the last 30 days;
- Sending redemption or distribution proceeds to any person, address, brokerage firm or bank account not on record; or
- Sending redemption or distribution proceeds to an account with a different registration (name or ownership) from yours.

We reserve the right to require a signature guarantee(s) on all redemptions.

Small Accounts. If the value of your account falls below \$2,000, the Fund may ask you to increase your balance. If the account value is still below \$2,000 after 60 days, the Fund may close your account and send you the proceeds. The Fund will not close your account if it falls below this amount solely as a result of a reduction in your account's market value.

Redemptions In Kind. The Fund reserves the right to pay redemption proceeds in portfolio securities rather than cash. These redemptions "in kind" usually occur if the amount requested is large enough to affect the Fund's operations (for example, if it represents more than 1 percent of the Fund's assets). A redemption in kind will consist of

securities equal in market value to the Fund shares being redeemed. When you convert these securities to cash, you will pay brokerage charges.

Lost Accounts. The Transfer Agent will consider your account “lost” if correspondence to your address of record is returned as undeliverable, unless the Transfer Agent determines your new address. When an account is “lost,” all distributions on the account will be reinvested in additional shares of the Fund. In addition, the amount of any outstanding (unpaid for 6 months or more) checks for distributions that have been returned to the Transfer Agent will be reinvested and the checks will be cancelled.

Exchange Privileges

You may sell your Fund shares and buy shares of any other series of the Trust, also known as an exchange, by telephone or in writing. Because exchanges are treated as a sale and purchase, they may have tax consequences. Shares of the Fund acquired by means of an exchange will be purchased at the NAV next determined after receipt of the exchange request in proper form by the Transfer Agent.

Requirements. You may exchange only between identically registered accounts (name(s), address and taxpayer ID number). To prevent the abuse of the exchange privilege to the disadvantage of other shareholders, the Fund reserves the right to terminate or modify the exchange privilege upon 60 days’ notice to shareholders. There is currently no limit on the number of exchanges, but each Fund reserves the right to limit exchanges. You may exchange your shares by mail or telephone, unless you declined telephone exchange privileges on your account application.

How to Exchange Shares

By Mail

- Prepare a written request including:
 - Your name(s) and signature(s)
 - Your account number
 - The names of the funds you are exchanging
 - The dollar amount or number of shares you want to sell (and exchange)
- If opening a new account, complete an account application if you are requesting different shareholder privileges
- Mail us your request and documentation

By Telephone

- Call us with your request (unless you declined telephone redemption privileges on your account application)
- Provide the following information:

- Your account number
- Exact name(s) in which account is registered
- Additional form of identification

The Transfer Agent requires personal identification before accepting any exchange request by telephone, and telephone exchange instructions may be recorded. If reasonable procedures are followed by the Transfer Agent, neither the Transfer Agent nor the Fund will be liable for losses due to unauthorized or fraudulent telephone instructions. In the event of drastic economic or market changes, a shareholder may experience difficulty in exchanging shares by telephone. If such a case should occur, sending exchange instructions by mail should be considered.

Market Timing

Excessive, short-term market timing or other abusive trading practices may disrupt portfolio management strategies, may drive Fund expenses higher, may increase taxable capital gains, and may harm Fund performance (diluting the value of Fund shares held by long-term investors). The Fund does not knowingly accommodate frequent purchases and redemptions.

It is the Trust's policy to strongly discourage abusive short-term trading or market timing in the Fund. This policy and related procedures are designed to reduce, to the extent possible, investors from using the Fund for abusive short-term trading or market timing. To minimize harm to the Fund and its shareholders, the Trust reserves the right to reject any purchase order, including exchange purchases, for any reason without prior notice, particularly orders that the Trust believes are made on behalf of persons engaging in excessive short-term trading.

Service providers to the Trust (primarily the Adviser and the Transfer Agent) will assist the Trust in undertaking steps necessary to implement this policy and related procedures. Trust service providers will assist the Trust in monitoring selected trades based on a shareholder's trading activity and history in an effort to detect short-term trading activities. If as a result of this monitoring the service providers believe a shareholder has engaged in abusive trading practices, they will inform the Trust's CCO and may, after consultation with or at the discretion of the Trust's CCO, ask the shareholder to stop such activities or refuse to process purchases or exchanges in the shareholder's account.

The Fund relies on intermediaries to help enforce its market timing policies. If the Fund detects short-term trading activity, the Fund will seek the assistance of the intermediary to investigate that trading activity and take appropriate action, including prohibiting additional purchases of Fund shares by the intermediary and/or its client. Although the Fund has taken steps to discourage abusive short-term trading or market timing, the Fund cannot guarantee that such trading will not occur.

DISTRIBUTIONS AND TAXES

Distributions

The Fund declares and pays distributions from net investment income quarterly. Any net capital gains realized by the Fund will be distributed at least annually.

All distributions are reinvested in additional shares, unless you elect to receive distributions in cash. For Federal income tax purposes, distributions are treated the same whether they are received in cash or reinvested. Shares become entitled to receive distributions on the day after the shares are issued.

Taxes

The following information is meant as a general summary for U.S. taxpayers. Additional information appears in the Statement of Additional Information (“SAI”). Shareholders should rely on their own tax advisors for advice about the particular federal, state, and local tax consequences of investing in the Fund.

The Fund intends to qualify as a regulated investment company for federal income tax purposes, and as such, will not be subject to federal income tax on its taxable income and gains that it distributes to its shareholders. The Fund intends to distribute its income and gains in such a way that it will not be subject to federal excise tax on certain undistributed amounts.

The Fund’s distributions of net investment income (including short-term capital gains) are generally taxable to you as ordinary income, although certain dividends may be taxed to non-corporate shareholders at long-term capital gains rates. The Fund’s distributions of long-term capital gains, if any, generally are taxable to you as long-term capital gains regardless of how long you have held your shares of the Fund. Distributions may also be subject to state and local taxes.

If you purchase shares shortly before the Fund makes a distribution, you are taxed on the distribution even though the distribution may represent a return of your investment. The sale or exchange of Fund shares is a taxable transaction for Federal income tax purposes.

The Fund may be required to withhold Federal income taxes at the rate of 28% of all taxable distributions payable to you if you fail to provide the Fund with your correct taxpayer identification number or to make required certifications, or if you have been notified by the Internal Revenue Service that you are subject to backup withholding. Backup withholding is not an additional tax. Any amounts withheld may be credited against your Federal income tax liability.

The Fund will mail you reports by February 15 of each year containing information about the income tax status of taxable distributions paid during the prior year. For further information about the tax effects of investing in the Fund, including state and local tax matters, please see the SAI and consult your tax advisor.

Cost Basis Reporting. As of January 1, 2012, federal law requires that mutual fund companies report their shareholders’ cost basis, gain/loss, and holding period to the Internal Revenue Service on the Fund’s shareholders’ Form 1099s when “covered” securities are sold. Covered securities are any regulated investment company and/or dividend reinvestment plan shares acquired on or after January 1, 2012. The Fund has chosen Average Cost as its default tax lot identification method for all shareholders. A tax lot

identification method is the way the Fund will determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Fund's standing tax lot identification method is the method covered shares will be reported on your Consolidated Form 1099 if you do not select a specific tax lot identification method. You may choose a method different than the Fund's standing method and will be able to do so at the time of your purchase or upon the sale of covered shares.

Please refer to the appropriate Internal Revenue Service regulations or consult your tax advisor with regard to your personal circumstances.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the past 5 years. Certain information reflects financial results for a single Fund share. The total returns in the table represents the rate an investor would have earned (or lost) on an investment in the Fund (assuming the reinvestment of all dividends and distributions). This information has been audited by Cohen & Company, Ltd., the Fund's independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the annual report to shareholders, which may be obtained at no charge by calling the Fund.

MORE INFORMATION ABOUT THE FUND

Additional Information About the Investment Objectives, Strategies and Risks.

The Monteagle Quality Growth Fund (the “Fund”) is a series of the Monteagle Funds.

THE FUND’S OBJECTIVE is long-term capital appreciation. The Fund’s objective may be changed without shareholder approval. The Fund will provide shareholders with at least 60 days’ notice before changing the objective. There can be no assurance that the Fund’s investment objective will be achieved.

A WORD ABOUT THE FUND: The Fund is a mutual fund which is a pooled investment vehicle that is professionally managed and that gives you the opportunity to participate in the financial markets. The Fund strives to reach its stated objective, although no assurances can be given that it will achieve that objective. Investments in the Fund are not bank deposits and are not insured by the Federal Deposit Insurance Corporation (“FDIC”) or any other government agency. The Fund does not represent a complete investment program. Your investment in the Fund is not guaranteed, and you could lose money by investing in the Fund. A description of the Fund’s policies and procedures with respect to the disclosure of its portfolio holdings is available in the SAI.

The Fund seeks to achieve its objective by investing, under normal circumstances, at least 80% of its assets in the common stock of domestic companies. This policy will not be changed without 60 days’ prior written notice to shareholders. The Fund only invests in companies having a minimum market capitalization of \$250 million at the time of purchase, and seeks to maintain a minimum average weighted market capitalization of at least \$5 billion.

The Fund invests in the securities of issuers that its Sub-adviser believes have superior growth potential and fundamental characteristics that are significantly better than the market average and support internal earnings growth capability. The Fund may invest in the securities of companies whose growth potential is, in the Sub-adviser’s opinion, generally unrecognized or misperceived by the market. The Sub-adviser may also look to changes in a company that involve a sharp increase in earnings, the hiring of new management or measures taken to close the gap between the company’s share price and takeover/asset value.

TEMPORARY DEFENSIVE POSITION

The Fund may from time to time assume a temporary defensive position that is inconsistent with the Fund’s principal investment strategies in attempting to respond to adverse market, economic, political or other conditions. For example, the Fund may hold all or a portion of its assets in securities issued by the U.S. Government, cash or cash equivalents such as high quality money market instruments. If the Fund invests in shares of another mutual fund, the shareholders of the Fund generally will be subject to duplicative management fees. As a result of engaging in these temporary measures, the Fund may not achieve its investment objective.

The Fund is not intended to be a “Sector Fund” (a fund concentrating its investments in one industry or related group of industries). To address this risk, the Fund has adopted two policies. The first policy is to limit its investments in any industry or group of related industries to 25% of fund assets (the “Investment Limitation Policy”). The second policy is if the 25% threshold is exceeded due to market appreciation, the portfolio manager shall commence an orderly reduction in holdings to bring the aggregate investment in any industry or group of related industries to below 25% (the “Reduction Policy”). The Fund will provide shareholders with at least 60 days’ notice of any change to the Reduction Policy. The Fund is not required to, and will not, provide shareholders with notice of any change to the Investment Limitation Policy.

CONCEPTS TO UNDERSTAND

Common Stock means securities representing a type of equity ownership in a corporation junior to debt and all other equity interests, and providing the holders of shares of common stock certain voting and other rights.

Market Capitalization of a company means the total dollar market value of a corporation’s outstanding shares.

Principal Investment Risks

An investment in the Fund is subject to investment risks, including the possible loss of the principal amount invested. This section provides more detailed information about the Fund’s principal investments and risks. This prospectus does not disclose all the types of securities or investment strategies that the Fund may use. The Fund’s statement of additional information provides more detailed information about the securities, investment strategies and risks described in this prospectus.

There is no assurance that the Fund will achieve its investment objective, and the Fund’s net asset value and total return will fluctuate based upon changes in the value of its portfolio securities. Upon redemption, an investment in the Fund may be worth less than its original cost. The Fund, by itself, does not provide a complete investment program. All investments made by the Fund have some risk. Among other things, the market value of any security in which the Fund may invest is based upon the market’s perception of value and not necessarily the par value of an issuer or other objective measure of the issuer’s worth.

The Fund is subject to the following principal investment risks:

Risks in General. Domestic economic growth and market conditions, interest rate levels, and political events are among the factors affecting the securities markets of the Fund’s investments. There is the risk that these and other factors may adversely affect the Fund’s performance. The loss of money is a risk of investing in the Fund. The Fund could underperform other investments.

Investment Selection Risk. The Fund’s ability to achieve its investment objective is dependent on the Sub-adviser’s ability to identify profitable investment opportunities for the Fund.

Market Risk. Stock prices are volatile. The value of securities in the Fund’s portfolio may decline due to daily fluctuations in the securities markets generally. The Fund’s performance per share will change daily based on many factors that may generally affect

the stock market, including fluctuation in interest rates, national and international economic conditions and general equity market conditions. In a declining stock market, stock prices for all companies (including those in the Fund's portfolio) may decline, regardless of their long-term prospects.

Small and Mid-Capitalization Risk. To the extent the Fund invests in underlying funds that invest in small and mid-capitalization companies or invests in such companies directly, the Fund will be subject to additional risks. The earnings and prospects of smaller companies are more volatile than larger companies, and smaller companies may experience higher failure rates than do larger companies. The trading volume of securities of smaller companies is normally less than that of larger companies and, therefore, may disproportionately affect their market price, tending to make prices fall more in response to selling pressure than is the case with larger companies. Smaller companies may also have limited markets, product lines, or financial resources, and may lack management experience.
